Parents

Have a look at the exemplar timetable in the booklet. What equipment/resources will your child need to take into school on specific days? Could your child do this independently? Start to instil in your son/daughter that there are usually consequences at secondary schools for students that do not have the correct equipment/resources. There are also lots of rewards on offer for students who follow 'The Ivanhoe Way.' Can your child learn the Ivanhoe Way rules?

This might be a good time to access the school website and look at the Behaviour and Rewards policies that can be found in the parent section of the website.
